IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

3M Scotchkote Urethane Elastomer 60RG 537 Kit

Product Identification Numbers GR-2001-2070-1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Industrial use.

1.3. Details of the supplier of the substance or mixture

Address: 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.

E Mail: tox.uk@mmm.com Website: www.3M.com/uk

1.4. Emergency telephone number

+44 (0)1344 858 000

This product is a kit or a multipart product which consists of multiple, independently packaged components. A Safety Data Sheet for each of these components is included. Please do not separate the component Safety Data Sheets from this cover page. The document numbers of the MSDSs for components of this product are:

29-1401-8, 28-4053-6, 28-3991-8, 26-5994-4, 28-4001-5

TRANSPORTATION INFORMATION

GR-2001-2070-1

Component 1 ADR/RID: UN1173, ETHYL ACETATE SOLUTION, LIMITED QUANTITY, 3, II, (E), ADR Classification Code: F1. IMDG-CODE: UN1173, ETHYL ACETATE SOLUTION, 3, II, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SD. ICAO/IATA: UN1173, ETHYL ACETATE SOLUTION, 3., II.

Component 2

ADR/RID: UN1263, PAINT RELATED MATERIAL, LIMITED QUANTITY, 3., II, (E), ADR Classification Code: F1. IMDG-CODE: UN1263, PAINT RELATED MATERIAL, 3, II, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SE. ICAO/IATA: UN1263, PAINT RELATED MATERIAL, 3., II.

Component 3 ADR/RID: UN1263, PAINT RELATED MATERIAL, LIMITED QUANTITY, 3., III, (E), ADR Classification Code: F1. IMDG-CODE: UN1263, PAINT RELATED MATERIAL, 3, III, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SE. ICAO/IATA: UN1263, PAINT RELATED MATERIAL, 3., III.

Component 4

ADR/RID: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID,N.O.S.LIMITED QUANTITY, (DIETHYLMETHYLBENZENEDIAMINE), 9., III, (E), ADR Classification Code: M6. IMDG-CODE: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID, N.O.S., (DIETHYLMETHYLBENZENEDIAMINE), 9., III, IMDG-Code segregation code: NONE, LIMITED QUANTITY, Marine Pollutant, (DIETHYLMETHYLBENZENEDIAMINE), EMS: FA,SF. ICAO/IATA: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID,N.O.S., (DIETHYLMETHYLBENZENEDIAMINE), 9., III, fish and tree marking may be required (> 5kg/l).

KIT LABEL

2.2. Label elements CLP REGULATION (EC) No 1272/2008

SIGNAL WORD

DANGER!

Symbols:

GHS02 (Flame) |GHS05 (Corrosion) | GHS07 (Exclamation mark) | GHS08 (Health Hazard) |GHS09 (Environment) |

Pictograms

HAZARD STATEMENTS:

| H225 | Highly flammable liquid and vapour. |
|------|---|
| H302 | Harmful if swallowed. |
| H318 | Causes serious eye damage. |
| H315 | Causes skin irritation. |
| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H317 | May cause an allergic skin reaction. |
| H335 | May cause respiratory irritation. |
| H336 | May cause drowsiness or dizziness. |
| H351 | Suspected of causing cancer. |
| H373 | May cause damage to organs through prolonged or repeated exposure: endocrine system liver |
| H411 | Toxic to aquatic life with long lasting effects. |

PRECAUTIONARY STATEMENTS

| Prevention: | |
|--------------------|--|
| P210A | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| P260 | Do not breathe dust/fume/gas/mist/vapours/spray. |
| P284A | In case of inadequate ventilation wear respiratory protection. |
| P280B | Wear protective gloves and eye/face protection. |
| P273 | Avoid release to the environment. |
| Response: | |
| P304 + P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P342 + P311 | If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician. |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present |
| | and easy to do. Continue rinsing. |
| P310 | Immediately call a POISON CENTRE or doctor/physician. |
| P333 + P313 | If skin irritation or rash occurs: Get medical advice/attention. |
| P370 + P378G | In case of fire: Use a fire fighting agent suitable for flammable liquids and solids such as dry chemical or carbon dioxide to extinguish. |

Disposal:

P501

Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Symbol(s)

Highly Flammable

Contains:

Consult the component labels for disclosable ingredients.

Risk phrases

| R11 | Highly flammable. |
|----------------|--|
| R20/21/22 | Harmful by inhalation, in contact with skin and if swallowed. |
| R36/37/38 | Irritating to eyes, respiratory system and skin. |
| R42/43 | May cause sensitisation by inhalation and skin contact. |
| R48/22 | Harmful: danger of serious damage to health by prolonged exposure if swallowed. |
| R40 | Limited evidence of a carcinogenic effect. |
| R51/53 | Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. |
| Safety phrases | |
| S16 | Keep away from sources of ignition - No Smoking. |
| S23A | Do not breathe vapour. |
| S36/37 | Wear suitable protective clothing and gloves. |
| S45 | In case of accident or if you feel unwell, seek medical advice immediately (show the label where |

Special provisions concerning the labelling of certain substances

Contains isocyanates. See information supplied by manufacturer.

Notes on labelling

Nota N applied to CAS 64742-46-7.

Revision information:

Revision Changes: Safety phrase information was modified. Kit: Component document group number(s) information was modified. Section 2: Risk phrase information information was modified.

Safety Data Sheet

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (EC) 1907/2006 and its modifications.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

3M Scotchkote 020 Cleaner

Product Identification Numbers

GR-2001-1551-1 GR-2001-2213-7 GR-2001-2214-5 GR-2001-4369-5

GR-2001-2215-2

GR-2001-4360-4

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Equipment Cleaner.

1.3. Details of the supplier of the substance or mixture

Address:3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.Telephone:+44 (0)1344 858 000E Mail:tox.uk@mmm.comWebsite:www.3M.com/uk

1.4. Emergency telephone number

+44 (0)1344 858 000

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture CLP REGULATION (EC) No 1272/2008

CLASSIFICATION:

Flammable Liquid, Category 3 - Flam. Liq. 3; H226 Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315 Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H336

For full text of H phrases, see Section 16.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive Indication of danger

Flammable; R10 Harmful; Xn; R20/21 Irritant; Xi; R38

For full text of R phrases, see Section 16.

2.2. Label elements CLP REGULATION (EC) No 1272/2008

SIGNAL WORD WARNING!

Symbols: GHS02 (Flame) |GHS07 (Exclamation mark) |

Pictograms

| Ingredient | CAS Nbr | % by Wt |
|----------------------|----------|---------|
| 1-Methoxypropan-2-ol | 107-98-2 | 50 - 60 |

HAZARD STATEMENTS:

| H226 | Flammable liquid and vapour. |
|------|------------------------------------|
| H315 | Causes skin irritation. |
| Н336 | May cause drowsiness or dizziness. |

PRECAUTIONARY STATEMENTS

| Prevention: P210A P261A | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapours. |
|--------------------------------------|---|
| Response: | |

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or

carbon dioxide to extinguish. 1% of the mixture consists of components of unknown acute oral toxicity.

1% of the mixture consists of components of unknown acute of a toxicity.
1% of the mixture consists of components of unknown acute inhalation toxicity.
1% of the mixture consists of components of unknown acute inhalation toxicity.
Contains 31% of components with unknown hazards to the aquatic environment.

Notes on labelling

P370 + P378G

Updated per Regulation (EC) No. 648/2004 on detergents. Ingredients required per 648/2004 (not required on industrial label): >= 30%: Aromatic hydrocarbons.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Symbol(s)

3M Scotchkote 020 Cleaner

Harmful

Contains:

Xylene

Risk phrases

| R10 | Flammable. |
|--------|---|
| R20/21 | Harmful by inhalation and in contact with skin. |
| R38 | Irritating to skin. |

Safety phrases

| S23Å | Do not breathe vapour. |
|--------|---|
| S36/37 | Wear suitable protective clothing and gloves. |

Notes on labelling

Updated per Regulation (EC) 648/2004 on detergents. Ingredients required per 648/2004 (not required on industrial label): >= 30%: Aromatic hydrocarbons.

2.3. Other hazards

None known.

SECTION 3: Composition/information on ingredients

| Ingredient | CAS Nbr | EU Inventory | % by Wt | Classification |

Please see section 16 for the full text of any R phrases and H statements referred to in this section

Please refer to section 15 for the any applicable Notas that have been applied to the above components

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

Eye contact

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

If swallowed

Do not induce vomiting. Get immediate medical attention.

4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1 Information on toxicological effects

4.3. Indication of any immediate medical attention and special treatment required

Not applicable

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

Hazardous Decomposition or By-Products

<u>Substance</u> Carbon monoxide. Carbon dioxide. <u>Condition</u> During combustion. During combustion.

5.3. Advice for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Eliminate all ignition sources if safe to do so. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Warning: A motor could be an ignition source and could cause flammable gases or vapours in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal

protective equipment.

6.2. Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

6.3. Methods and material for containment and cleaning up

Contain spill. Cover spill area with a fire-extinguishing foam. An appropriate aqueous film forming foam (AFFF) is recommended. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible.

6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

SECTION 7: Handling and storage

7.1. Precautions for safe handling

For industrial or professional use only. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. Use personal protective equipment (eg. gloves, respirators...) as required. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapor accumulation. Ground/bond container and receiving equipment if there is potential for static electricity accumulation during transfer.

7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep cool. Keep container tightly closed. Protect from sunlight. Store away from heat. Store away from oxidising agents.

7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient | CAS Nbr | Agency | Limit type | Additional comments |
|----------------------|-----------|--------|---------------------------------------|---------------------|
| Ethylbenzene | 100-41-4 | UK HSC | TWA:441 mg/m3(100 | Skin Notation |
| | | | ppm);STEL:552 mg/m3(125 | |

ppm)

UK EH40 BMGVs : UK. EH40 Biological Monitoring Guidance Values (BMGVs) EOS: End of shift.

8.2. Exposure controls

8.2.1. Engineering controls

Provide appropriate local exhaust ventilation at transfer points. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

None required.

Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended: Nitrile rubber.

Respiratory protection

In case of inadequate ventilation wear respiratory protection. An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure: Half facepiece or full facepiece air-purifying respirator suitable for organic vapours

For questions about suitability for a specific application, consult with your respirator manufacturer.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Physical state | Liquid. |
|------------------------------------|---|
| Appearance/Odour | Aromatic odour; Clear colour |
| Odour threshold | No data available. |
| рН | Not applicable. |
| Boiling point/boiling range | >= 120 °C |
| Melting point | Not applicable. |
| Flammability (solid, gas) | Not applicable. |
| Explosive properties | Not classified |
| Oxidising properties | Not classified |
| Flash point | 23 °C [<i>Test Method</i> :Closed Cup] |

| Autoignition temperature | >= 300 °C |
|--|----------------------------------|
| Flammable Limits(LEL) | 1 % |
| Flammable Limits(UEL) | 11.5 % |
| Vapour pressure | 1,178.6 Pa [@ 25 °C] |
| Relative density | 0.905 [<i>Ref Std</i> :WATER=1] |
| Water solubility | 0 % |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Evaporation rate | No data available. |
| Vapour density | >=1 [<i>Ref Std</i> :AIR=1] |
| Decomposition temperature | No data available. |
| Viscosity | No data available. |
| Density | 0.905 g/ml |
| | |

9.2. Other information

Volatile organic compounds (VOC)

905 g/l [Details:EU Definition]

SECTION 10: Stability and reactivity

10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

10.2 Chemical stability Stable.

10.3 Possibility of hazardous reactions Hazardous polymerisation will not occur.

10.4 Conditions to avoid

Temperatures above the boiling point. Sparks and/or flames. Heat.

10.5 Incompatible materials Combustibles.

10.6 Hazardous decomposition products <u>Substance</u> None known.

Condition

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from 3M assessments.

11.1 Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause target organ effects after inhalation.

Skin contact

Mild Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, and dryness.

Eye contact

Contact with the eyes during product use is not expected to result in significant irritation.

Ingestion

Chemical (aspiration) pneumonitis: Signs/symptoms may include coughing, gasping, choking, burning of the mouth, difficulty breathing, bluish coloured skin (cyanosis), and may be fatal. Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause target organ effects after ingestion.

Target Organ Effects:

Single exposure may cause:

Auditory effects: Signs/symptoms may include hearing impairment, balance dysfunction and ringing in the ears. Central nervous system (CNS) depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

Prolonged or repeated exposure may cause:

Auditory effects: Signs/symptoms may include hearing impairment, balance dysfunction and ringing in the ears. Neurological effects: Signs/symptoms may include personality changes, lack of coordination, sensory loss, tingling or numbness of the extremities, weakness, tremors, and changes in blood pressure and heart rate.

Reproductive/Developmental Toxicity:

Contains a chemical or chemicals which can cause birth defects or other reproductive harm.

Carcinogenicity:

Contains a chemical or chemicals which can cause cancer.

Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

| Name | Route | Species | Value |
|--------------------------|-------------|---------|--|
| Overall product | Dermal | | No data available; calculated ATE >5,000 mg/kg |
| Overall product | Inhalation- | | No data available; calculated ATE >50 mg/l |
| | Vapor(4 hr) | | |

3M Scotchkote 020 Cleaner

Reproductive Toxicity

Reproductive and/or Developmental Effects

| ame Route Value | | Species | Test result | Exposure Duration | |
|----------------------|------------|--|-------------------------------|-----------------------------|------------------------------------|
| 1-Methoxypropan-2-ol | Inhalation | Not toxic to male reproduction | Rat | NOAEL 11.0 mg/l | 2 generation |
| 1-Methoxypropan-2-ol | Ingestion | Some positive female reproductive data exist, but the data are not sufficient for classification | Mouse | NOAEL 3,328 mg/kg/day | 2 generation |
| 1-Methoxypropan-2-ol | Inhalation | Some positive female reproductive data exist, but the data are not sufficient for classification | Rat | NOAEL 3.7 mg/l | 2 generation |
| 1-Methoxypropan-2-ol | Ingestion | Some positive male reproductive data exist, but the data are not sufficient for classification | Mouse | NOAEL 3,328 mg/kg | 2 generation |
| 1-Methoxypropan-2-ol | Ingestion | Some positive developmental data exist, but the data are not sufficient for classification | Rat | NOAEL 370 mg/kg | during gestation |
| 1-Methoxypropan-2-ol | Inhalation | Some positive developmental data exist, but the data are not sufficient for classification | Rat | NOAEL 3.7 mg/l | 2 generation |
| Xylene | Ingestion | Not toxic to female reproduction | Mouse | NOAEL 1,000 mg/kg/day | 103 weeks |
| Xylene | Ingestion | Not toxic to male reproduction | Mouse | NOAEL 1,000 mg/kg/day | 103 weeks |
| Xylene | Inhalation | Some positive female reproductive data exist, but the data are not sufficient for classification | Human | NOAEL Not available | occupational exposure |
| Xylene | Ingestion | Some positive developmental data exist, but the data are not sufficient for classification | Mouse | NOAEL Not available | during organogenesi |
| Xylene | Inhalation | Some positive developmental data exist, but the data are not sufficient for classification | Multiple animal species | NOAEL Not available | during gestation |
| Ethylbenzene | Inhalation | Some positive developmental data exist, but the data are not sufficient for classification | Rat | NOAEL 4.3 mg/l | premating & during gestation |
| 2-methoxypropanol | Ingestion | Not toxic to male reproduction | Rat | NOAEL 1,800 mg/kg/day | 10 days |
| 2-methoxypropanol | Inhalation | Not toxic to male reproduction | Rat | NOAEL 10.5 mg/l | 28 days |
| 2-methoxypropanol | Inhalation | Toxic to development | Rabbit | NOAEL .5 mg/l | during organogenesi |

Lactation

| Name | Route | Species | Value |
|--------|-----------|---------|--|
| Xylene | Ingestion | Mouse | Does not cause effects on or via lactation |

Target Organ(s)

Specific Target Organ Toxicity - single exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure Duration |
|----------------------|------------|--------------------------------------|--|---------|------------------------|----------------------|
| 1-Methoxypropan-2-ol | Dermal | central nervous system depression | Some positive data exist, but the data are not sufficient for classification | Rabbit | NOAEL 1,800 mg/kg | 13 weeks |
| 1-Methoxypropan-2-ol | Inhalation | central nervous system depression | May cause drowsiness or dizziness | Human | NOAEL Not available | |
| Xylene | Inhalation | auditory system | Causes damage to organs | Rat | LOAEL 6.3 mg/l | 8 hours |
| Xylene | Inhalation | central nervous | May cause drowsiness or | Human | NOAEL Not | |

| | | system depression | dizziness | | available | |
|-------------------|------------|--------------------------------------|--|--------------------------------|------------------------|----------------|
| Xylene | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | Human | NOAEL Not available | |
| Xylene | Inhalation | eyes | Some positive data exist, but the data are not sufficient for classification | | NOAEL 3.5 mg/l | not available |
| Xylene | Inhalation | liver | Some positive data exist, but the data are not sufficient for classification | | NOAEL Not available | |
| Xylene | Ingestion | central nervous system depression | May cause drowsiness or dizziness | Multiple animal species | NOAEL Not available | |
| Xylene | Ingestion | eyes | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 250 mg/kg | not applicable |
| Ethylbenzene | Inhalation | central nervous system depression | May cause drowsiness or dizziness | Human | NOAEL Not available | |
| Ethylbenzene | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | Human and animal | NOAEL Not available | |
| 2-methoxypropanol | Inhalation | central nervous system depression | May cause drowsiness or dizziness | | NOAEL Not available | |
| 2-methoxypropanol | Inhalation | respiratory irritation | May cause respiratory irritation | official classifica tion | NOAEL Not available | |

Specific Target Organ Toxicity - repeated exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure Duration |
|---|------------|--|--|-------------------------------|-----------------------------|----------------------|
| 1-Methoxypropan-2-ol | Dermal | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rabbit | NOAEL 1,800 mg/kg/day | 13 weeks |
| 1-Methoxypropan-2-ol | Dermal | hematopoietic system | All data are negative | Rabbit | NOAEL 1,000 mg/kg/day | 3 weeks |
| 1-Methoxypropan-2-ol | Inhalation | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 3.7 mg/l | 13 weeks |
| 1-Methoxypropan-2-ol | Inhalation | liver | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 11 mg/l | 13 weeks |
| 1-Methoxypropan-2-ol | Inhalation | hematopoietic system | All data are negative | Rat | NOAEL 2.2 mg/l | 10 days |
| 1-Methoxypropan-2-ol | Ingestion | liver kidney and/or Some positive data exist, but the data are not sufficient for classification | | Rat | NOAEL 920 mg/kg/day | 13 weeks |
| Xylene | Inhalation | nervous system | Causes damage to organs through prolonged or repeated exposure | Rat | LOAEL 0.4 mg/l | 4 weeks |
| Xylene | Inhalation | auditory system | | | LOAEL 7.8 mg/l | 5 days |
| Xylene | Inhalation | liver | Some positive data exist, but the data are not sufficient for classification | Multiple animal species | NOAEL Not available | |
| Xylene Inhalation heart endocrine All data system hematopoietic system muscles kidney and/or bladder respiratory system lite lite | | All data are negative | Multiple animal species | NOAEL 3.5 mg/l | 13 weeks | |
| Xylene | Ingestion | auditory system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 900 mg/kg/day | 2 weeks |
| Xylene | Ingestion | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 1,500 mg/kg/day | 90 days |

3M Scotchkote 020 Cleaner

| Xylene | Ingestion | liver | Some positive data exist, but the data are not sufficient for classification | Multiple animal species | NOAEL Not available | |
|--------------------------|------------|--|--|-------------------------------|-----------------------------|-----------|
| Xylene | Ingestion | heart skin endocrine system bone, teeth, nails, and/or hair hematopoietic system immune system nervous system respiratory system | All data are negative | Mouse | NOAEL 1,000 mg/kg/day | 103 weeks |
| Ethyl 3-ethoxypropionate | Inhalation | hematopoietic system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 6 mg/l | 90 days |
| Ethyl 3-ethoxypropionate | Inhalation | nervous system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 6 mg/l | 17 days |
| Ethyl 3-ethoxypropionate | Inhalation | heart liver immune system kidney and/or bladder | All data are negative | Rat | NOAEL 6 mg/l | 17 days |
| Ethyl 3-ethoxypropionate | Ingestion | liver | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 1,000 mg/kg/day | 17 days |
| Ethyl 3-ethoxypropionate | Ingestion | hematopoietic system | All data are negative | Rat | NOAEL 1,000 mg/kg/day | 28 days |
| Ethyl 3-ethoxypropionate | Ingestion | kidney and/or bladder respiratory system | All data are negative | Rat | NOAEL 1,000 mg/kg/day | 17 days |
| Ethylbenzene | Inhalation | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 1.1 mg/l | 2 years |
| Ethylbenzene | Inhalation | liver | Some positive data exist, but the data are not sufficient for classification | Mouse | NOAEL 1.1 mg/l | 103 weeks |
| Ethylbenzene | Inhalation | hematopoietic system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 3.4 mg/l | 28 days |
| Ethylbenzene | Inhalation | auditory system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 2.4 mg/l | 5 days |
| Ethylbenzene | Inhalation | endocrine system | Some positive data exist, but the data are not sufficient for classification | Mouse | NOAEL 3.3 mg/l | 103 weeks |
| Ethylbenzene | Inhalation | bone, teeth, nails, and/or hair muscles | All data are negative | Multiple animal species | NOAEL 4.2 mg/l | 90 days |
| Ethylbenzene | Inhalation | heart immune system respiratory system | All data are negative | Multiple animal species | NOAEL 3.3 mg/l | 2 years |
| Ethylbenzene | Ingestion | liver kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 680 mg/kg/day | 6 months |
| 2-methoxypropanol | Inhalation | immune system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 2.1 mg/l | 28 days |
| 2-methoxypropanol | Inhalation | bone marrow | All data are negative | Rat | NOAEL 10.5 mg/l | 28 days |
| 2-methoxypropanol | Ingestion | hematopoietic system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 1,800 mg/kg/day | 10 days |

Aspiration Hazard

| Name | Value |
|--------------|-------------------|
| Xylene | Aspiration hazard |
| Ethylbenzene | Aspiration hazard |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: Ecological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

12.1. Toxicity

No product test data available.

| Material | CAS Nbr | Organism | Туре | Exposure | Test endpoint | Test result |
|----------------------------------|-----------|-------------------|--|----------|---------------|-------------|
| Ethyl 3- ethoxypropion ate | 763-69-9 | Fathead minnow | Experimental | 96 hours | LC50 | 45.3 mg/l |
| Ethyl 3- ethoxypropion ate | 763-69-9 | Water flea | Experimental | 48 hours | EC50 | >479.7 mg/l |
| Ethyl 3- ethoxypropion ate | 763-69-9 | Green Algae | Experimental | 72 hours | NOEC | 114.86 mg/l |
| 1- Methoxypropa n-2-ol | 107-98-2 | Fathead minnow | Experimental | 96 hours | LC50 | 20,800 mg/l |
| 1- Methoxypropa n-2-ol | 107-98-2 | Water flea | Experimental | 48 hours | EC50 | 23,300 mg/l |
| 2- methoxypropa nol | 1589-47-5 | Fathead minnow | Experimental | 96 hours | LC50 | 20,800 mg/l |
| 2- methoxypropa nol | 1589-47-5 | Water flea | Experimental | 48 hours | EC50 | 23,300 mg/l |
| Xylene | 1330-20-7 | | Data not available or insufficient for classification | | | |
| Ethylbenzene | 100-41-4 | Rainbow trout | Experimental | 96 hours | LC50 | 4.2 mg/l |
| Ethylbenzene | 100-41-4 | Green Algae | Experimental | 96 hours | EC50 | 3.6 mg/l |
| Ethylbenzene | 100-41-4 | Water flea | Experimental | 24 hours | EC50 | 1.81 mg/l |

12.2. Persistence and degradability

| Material | CAS Nbr | Test type | Duration | Study Type | Test result | Protocol |
|---------------|----------|----------------|----------|------------------|------------------|-----------------------|
| Ethyl 3- | 763-69-9 | Experimental | 18 days | % CO2 | 100 % weight | OECD 301B - |
| ethoxypropion | | Biodegradation | | produced | | Modified sturm or CO2 |
| ate | | | | | | |
| Ethyl 3- | 763-69-9 | Experimental | | Photolytic half- | 1.2 days (t 1/2) | Other methods |
| ethoxypropion | | Photolysis | | life (in air) | | |
| ate | | | | | | |

| 1- Methoxypropa n-2-ol | 107-98-2 | Experimental Biodegradation | 28 days | BOD | 90 % weight | OECD 301C - MITI test (I) |
|------------------------------|-----------|--|---------|-----------------------------------|----------------------|------------------------------|
| 2- methoxypropa nol | 1589-47-5 | Experimental Biodegradation | 28 days | BOD | 90 % weight | OECD 301C - MITI test (I) |
| Xylene | 1330-20-7 | Data not available or insufficient for classification | N/A | N/A | N/A | N/A |
| Ethylbenzene | 100-41-4 | Laboratory Biodegradation | 14 days | BOD | 81 % weight | Other methods |
| Ethylbenzene | 100-41-4 | Experimental Photolysis | | Photolytic half- life (in air) | 4.26 days (t 1/2) | Other methods |

12.3 : Bioaccumulative potential

| Material | CAS Nbr | Test type | Duration | Study Type | Test result | Protocol |
|---------------|-----------|-----------------------|----------|---------------|-------------|---------------|
| Ethyl 3- | 763-69-9 | Experimental | | Log Kow | 1.35 | Other methods |
| ethoxypropion | | Bioconcentrati | | | | |
| ate | | on | | | | |
| 1- | 107-98-2 | Estimated | | Log Kow | -0.49 | Other methods |
| Methoxypropa | | Bioconcentrati | | | | |
| n-2-ol | | on | | | | |
| 2- | 1589-47-5 | Estimated | | Bioaccumulati | -0.49 | Other methods |
| methoxypropa | | Bioconcentrati | | on factor | | |
| nol | | on | | | | |
| Xylene | 1330-20-7 | Data not available or | N/A | N/A | N/A | N/A |
| | | insufficient for | | | | |
| | | classification | | | | |
| Ethylbenzene | 100-41-4 | Experimental | | Bioaccumulati | 15 | Other methods |
| | | BCF - Other | | on factor | | |

12.4. Mobility in soil

Please contact manufacturer for more details

12.5. Results of the PBT and vPvB assessment

No information available at this time, contact manufacturer for more details

12.6. Other adverse effects

No information available.

The surfactant(s) contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

See Section 11.1 Information on toxicological effects

Incinerate in a permitted waste incineration facility. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical

3M Scotchkote 020 Cleaner

substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

EU waste code (product as sold)

070104* Other organic solvents, washing liquids and mother liquors

SECTION 14: Transportation information

GR-2001-1551-1, GR-2001-2213-7, GR-2001-2215-2

ADR/RID: UN1263, PAINT RELATED MATERIAL, LIMITED QUANTITY, 3., III, (E), ADR Classification Code: F1. IMDG-CODE: UN1263, PAINT RELATED MATERIAL, 3, III, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SE. ICAO/IATA: UN1263, PAINT RELATED MATERIAL, 3., III.

GR-2001-2214-5, GR-2001-4360-4, GR-2001-4369-5

ADR/RID: UN1263, PAINT RELATED MATERIAL, LIMITED QUANTITY, 3., III, (E), ADR Classification Code: F1. **IMDG-CODE:** UN1263, PAINT RELATED MATERIAL, 3, III, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SE.

ICAO/IATA: UN1263, PAINT RELATED MATERIAL, 3., III.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| Carcinogenicity | | | |
|-------------------|-----------|-------------------------|--------------------------|
| Ingredient | CAS Nbr | Classification | <u>Regulation</u> |
| Ethylbenzene | 100-41-4 | Grp. 2B: Possible human | International Agency |
| | | carc. | for Research on Cancer |
| Xylene | 1330-20-7 | Gr. 3: Not classifiable | International Agency |
| | | | for Research on Cancer |

Global inventory status

Contact 3M for more information. The components of this material are in compliance with the China "Measures on Environmental Management of New Chemical Substance". Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of the Korean Toxic Chemical Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for this product are in compliance with the new substance notification requirements of CEPA. The components of this product are in compliance with the chemical notification requirements of TSCA.

15.2. Chemical Safety Assessment

Not applicable

SECTION 16: Other information

List of relevant H statements

| H225 | Highly flammable liquid and vapour. |
|-------|--|
| H226 | Flammable liquid and vapour. |
| H304 | May be fatal if swallowed and enters airways. |
| H312 | Harmful in contact with skin. |
| H315 | Causes skin irritation. |
| H318 | Causes serious eye damage. |
| H332 | Harmful if inhaled. |
| H335 | May cause respiratory irritation. |
| H336 | May cause drowsiness or dizziness. |
| H360D | May damage the unborn child. |
| H373 | May cause damage to organs through prolonged or repeated exposure. |

List of relevant R-phrases

| real contraction of the second s | |
|--|---|
| R10 | Flammable. |
| R11 | Highly flammable. |
| R20 | Harmful by inhalation. |
| R20/21 | Harmful by inhalation and in contact with skin. |
| R21 | Harmful in contact with skin. |
| R37 | Irritating to respiratory system. |
| R38 | Irritating to skin. |
| R41 | Risk of serious damage to eyes. |
| R48/20 | Harmful: danger of serious damage to health by prolonged exposure through inhalation. |
| R52 | Harmful to aquatic organisms. |
| R61 | May cause harm to the unborn child. |
| R65 | Harmful: May cause lung damage if swallowed. |
| R67 | Vapours may cause drowsiness and dizziness. |
| | |

Revision information:

Revision Changes:

Section 8: Skin protection - recommended gloves information information was modified.

Section 16: List of relevant R phrase information information was modified.

Section 3: Composition/ Information of ingredients table information was modified.

Section 12: Component ecotoxicity information information was modified.

Section 12: Persistence and Degradability information information was modified.

Section 12:Bioccumulative potential information information was modified.

Label: CLP Precautionary - Prevention information was modified.

Label: CLP Precautionary - Response information was modified.

Section 8: Occupational exposure limit table information was modified.

OEL Reg Agency Desc information was modified.

Telephone header information was modified.

Company Telephone information was modified.

Section 11: Health Effects - Eye information information was modified.

Section 5: Fire - Extinguishing media information information was modified.

Section 7: Precautions safe handling information information was modified.

Section 8: Appropriate Engineering controls information information was modified.

Section 8: Personal Protection - Skin/hand information information was modified.

Two-column table displaying the unique list of H Codes and statements (std phrases) for all components of the given material. information was modified.

Section 8: Eye protection information information was added.

Section 8: Occupational exposure limit table information was added.

Section 12: Classification Warning information was added.

3M Scotchkote 020 Cleaner

Section 11: Classification disclaimer information was added.

Section 8: Eye/face protection information information was deleted.

Section 15: Ingredient information per Regulation EC No. 648/2004 information was deleted.

Section 11: Classification disclaimer information was deleted.

Section 12: Classification Warning information was deleted.

Section 8: Personal Protection - Eye information information was deleted.

Section 15: Ingredient information per Regulation EC No. 648/2004 heading information was deleted.

DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications.

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (EC) 1907/2006 and its modifications.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

3M Scotchkote Urethane Elastomer 60RG 537 Catalyst

Product Identification Numbers GR-2001-0974-6

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Catalyst.

1.3. Details of the supplier of the substance or mixture

Address: 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.

E Mail: tox.uk@mmm.com Website: www.3M.com/uk

1.4. Emergency telephone number

+44 (0)1344 858 000

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture CLP REGULATION (EC) No 1272/2008

CLASSIFICATION:

Flammable Liquid, Category 2 - Flam. Liq. 2; H225 Serious Eye Damage/Eye Irritation, Category 1 - Eye Dam. 1; H318 Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315 Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H336

For full text of H phrases, see Section 16.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive Indication of danger

Highly flammable; F; R11 Harmful; Xn; R21 Irritant; Xi; R36/38 R67

For full text of R phrases, see Section 16.

2.2. Label elements CLP REGULATION (EC) No 1272/2008

SIGNAL WORD

DANGER!

Symbols:

GHS02 (Flame) |GHS05 (Corrosion) | GHS07 (Exclamation mark) |

Pictograms

| Ingredient | CAS Nbr | % by Wt |
|---|-----------|---------|
| Ethyl acetate | 141-78-6 | 90 - 95 |
| N,N,N',N'-Tetramethyl-2,2'-oxybis(ethylamine) | 3033-62-3 | 1 - 5 |

HAZARD STATEMENTS:

| H225 | Highly flammable liquid and vapour. |
|------|-------------------------------------|
| H318 | Causes serious eye damage. |
| H315 | Causes skin irritation. |
| H336 | May cause drowsiness or dizziness. |

PRECAUTIONARY STATEMENTS

| Prevention: P210A P261 P280A | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing dust/fume/gas/mist/vapours/spray. Wear eye/face protection. |
|---------------------------------------|--|
| Response: | |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310 | Immediately call a POISON CENTRE or doctor/physician. |
| P370 + P378G | In case of fire: Use a fire fighting agent suitable for flammable liquids and solids such as dry chemical or carbon dioxide to extinguish. |

2% of the mixture consists of components of unknown acute inhalation toxicity.

Notes on labelling

Industrial label.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Symbol(s)

Harmful

Flammable

Contains:

N,N,N',N'-Tetramethyl-2,2'-oxybis(ethylamine)

Risk phrases

| R11 | Highly flammable. |
|----------------|--|
| R21 | Harmful in contact with skin. |
| R36/38 | Irritating to eyes and skin. |
| R67 | Vapours may cause drowsiness and dizziness. |
| Safety phrases | |
| S16 | Keep away from sources of ignition - No Smoking. |
| S36/37 | Wear suitable protective clothing and gloves. |

2.3. Other hazards

None known.

SECTION 3: Composition/information on ingredients

| Ingredient | CAS Nbr | EU Inventory | % by Wt | Classification |
|---|------------|----------------------|---------|--|
| Ethyl acetate | 141-78-6 | EINECS 205- 500-4 | 90 - 95 | F:R11; Xi:R36; R66; R67 (EU) |
| | | | | Flam. Liq. 2, H225; Eye Irrit. 2, H319; STOT SE 3, H336; EUH066 (CLP) |
| Oxydipropanol | 25265-71-8 | EINECS 246- 770-3 | 1 - 5 | |
| N,N,N',N'-Tetramethyl-2,2'- oxybis(ethylamine) | 3033-62-3 | EINECS 221- 220-5 | 1 - 5 | C:R35 (Vendor) T:R24; Xn:R20-22; R52/53 (Self Classified) |
| | | | | Skin Corr. 1A, H314 (Vendor) Acute Tox. 3, H331; Acute Tox. 3, H311; Acute Tox. 4, H302; Aquatic Chronic 3, H412 (Self Classified) |

Please see section 16 for the full text of any R phrases and H statements referred to in this section Please refer to section 15 for the any applicable Notas that have been applied to the above components

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

Eye contact

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

If swallowed

Rinse mouth. If you feel unwell, get medical attention.

4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1 Information on toxicological effects

4.3. Indication of any immediate medical attention and special treatment required

Not applicable

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for flammable liquids and solids such as dry chemical or carbon dioxide to extinguish.

5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

Hazardous Decomposition or By-Products

| <u>Substance</u> | Condition |
|------------------|--------------------|
| Carbon monoxide. | During combustion. |
| Carbon dioxide. | During combustion. |

5.3. Advice for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

6.2. Environmental precautions

Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Contain spill. Cover spill area with a fire-extinguishing foam. An appropriate aqueous film forming foam (AFFF) is recommended. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible.

6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

SECTION 7: Handling and storage

7.1. Precautions for safe handling

For industrial or professional use only. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Ground/bond container and receiving equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapor accumulation.

7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store away from heat. Store away from acids. Store away from oxidising agents.

7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Ingredient | CAS Nbr | Agency | Limit type | Additional comments |
|--|-------------------|--------------|--------------------------|---------------------|
| Ethyl acetate | 141-78-6 | Health and | TWA:200 ppm;STEL:400 ppm | |
| - | | Safety Comm. | | |
| | | (UK) | | |
| Health and Safety Comm. (UK) : UK Heal | lth and Safety Co | mmission | | |

Health and Safety Comm. (UK) : UK Health and Safety Commission TWA: Time-Weighted-Average STEL: Short Term Exposure Limit CEIL: Ceiling

Biological limit values

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.

8.2. Exposure controls

8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment. Provide appropriate local exhaust ventilation at transfer points. Provide appropriate local exhaust ventilation on open containers.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Full face shield.

Indirect vented goggles.

Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended: Polymer laminate

Respiratory protection

Wear respiratory protection if ventilation is inadequate to prevent overexposure. An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure: Full facepiece air-purifying respirator suitable for organic vapours

For questions about suitability for a specific application, consult with your respirator manufacturer.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Physical state | Liquid. |
|--|---------------------------------|
| Appearance/Odour | Etherial odour; Clear colour |
| Odour threshold | No data available. |
| рН | No data available. |
| Boiling point/boiling range | >=77 °C |
| Melting point | No data available. |
| Flammability (solid, gas) | Not applicable. |
| Explosive properties | Not classified |
| Oxidising properties | Not classified |
| Flash point | -4 °C [Test Method:Closed Cup] |
| Autoignition temperature | 425 °C |
| Flammable Limits(LEL) | 2.1 % volume |
| Flammable Limits(UEL) | 11.5 % volume |
| Vapour pressure | 10,132.5 Pa [@ 20 °C] |
| Relative density | 0.88 [<i>Ref Std</i> :WATER=1] |
| Water solubility | Negligible |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Evaporation rate | 6 [<i>Ref Std</i> :BUOAC=1] |
| Vapour density | 3 [<i>Ref Std</i> :AIR=1] |
| Decomposition temperature | No data available. |
| Viscosity | 0.001 Pa-s |
| Density | 0.88 g/ml |
| 9.2. Other information | |
| Volatile organic compounds (VOC) | 845 g/l |
| Percent volatile | 96.00 % weight |
| | |
| | |

SECTION 10: Stability and reactivity

10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

10.2 Chemical stability

Stable.

10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

10.4 Conditions to avoid Heat. Sparks and/or flames.

10.5 Incompatible materials

Alkali and alkaline earth metals. Strong acids. Strong oxidising agents.

10.6 Hazardous decomposition products

Substance None known. **Condition**

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

11.1 Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause target organ effects after inhalation.

Skin contact

Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, dryness, cracking, blistering, and pain.

Eye contact

Corrosive (eye burns): Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing, ulcerations, significantly impaired vision or complete loss of vision.

Ingestion

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea.

May cause target organ effects after ingestion.

Target Organ Effects:

Single exposure may cause:

Central nervous system (CNS) depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

| Name | Route | Species | Value |
|---|-------------|---------|--|
| Overall product | Dermal | | No data available; calculated ATE >5,000 mg/kg |
| Overall product | Inhalation- | | No data available; calculated ATE >50 mg/l |
| | Vapor(4 hr) | | |
| Overall product | Ingestion | | No data available; calculated ATE >5,000 mg/kg |
| Ethyl acetate | Dermal | Rabbit | LD50 > 18,000 mg/kg |
| Ethyl acetate | Inhalation- | Rat | LC50 70.5 mg/l |
| | Vapor (4 | | |
| | hours) | | |
| Ethyl acetate | Ingestion | Rat | LD50 5,620 mg/kg |
| N,N,N',N'-Tetramethyl-2,2'-oxybis(ethylamine) | Dermal | Rabbit | LD50 238 mg/kg |
| N,N,N',N'-Tetramethyl-2,2'-oxybis(ethylamine) | Inhalation- | Rat | LC50 2.2 mg/l |
| | Vapor (4 | | |
| | hours) | | |
| N,N,N',N'-Tetramethyl-2,2'-oxybis(ethylamine) | Ingestion | Rat | LD50 570 mg/kg |
| Oxydipropanol | Dermal | Rabbit | LD50 > 5,000 mg/kg |
| Oxydipropanol | Ingestion | Rat | LD50 14,800 mg/kg |

Specific Target Organ Toxicity - repeated exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure Duration |
|---------------|------------|---|--|---------|-----------------------------|----------------------|
| Ethyl acetate | Inhalation | endocrine system liver nervous system | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 0.043 mg/l | 90 days |
| Ethyl acetate | Inhalation | hematopoietic system | Some positive data exist, but the data are not sufficient for classification | Rabbit | LOAEL 16 mg/l | 40 days |
| Ethyl acetate | Ingestion | hematopoietic system liver kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 3,600 mg/kg/day | 90 days |

Aspiration Hazard

Name

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

Value

SECTION 12: Ecological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

12.1. Toxicity

No product test data available.

| Material | CAS Nbr | Organism | Туре | Exposure | Test endpoint | Test result |
|----------------|-----------|------------|--------------|----------|---------------|-------------|

12.4. Mobility in soil

Please contact manufacturer for more details

12.5. Results of the PBT and vPvB assessment

No information available at this time, contact manufacturer for more details

12.6. Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

See Section 11.1 Information on toxicological effects

Incinerate in a permitted waste incineration facility. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

EU waste code (product as sold)

08 01 11* Waste paint and varnish containing organic solvents or other dangerous substances

SECTION 14: Transportation information

GR-2001-0974-6

ADR/RID: UN1173, ETHYL ACETATE SOLUTION, LIMITED QUANTITY, 3, II, (E), ADR Classification Code: F1. IMDG-CODE: UN1173, ETHYL ACETATE SOLUTION, 3, II, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SD. ICAO/IATA: UN1173, ETHYL ACETATE SOLUTION, 3., II.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Global inventory status

Contact 3M for more information. The components of this material are in compliance with the China "Measures on Environmental Management of New Chemical Substance". Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of the Korean Toxic Chemical Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. The components of this product are in compliance with the chemical notification requirements of TSCA.

15.2. Chemical Safety Assessment

Not applicable

SECTION 16: Other information

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (EC) 1907/2006 and its modifications.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

3M Scotchkote Urethane Elastomer 60RG 537 (Part A)

Product Identification Numbers GR-2001-0962-1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Coating.

1.3. Details of the supplier of the substance or mixture

Address: 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.

E Mail: tox.uk@mmm.com Website: www.3M.com/uk

1.4. Emergency telephone number

+44 (0)1344 858 000

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture CLP REGULATION (EC) No 1272/2008

CLASSIFICATION:

Respiratory Sensitization, Category 1A - Resp. Sens. 1A; H334 Skin Sensitization, Category 1A - Skin Sens. 1A; H317

For full text of H phrases, see Section 16.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive Indication of danger Harmful; Xn; R20 Sensitizing; R42 For full text of R phrases, see Section 16.

2.2. Label elements CLP REGULATION (EC) No 1272/2008

SIGNAL WORD **DANGER!**

Symbols: GHS08 (Health Hazard) |

Pictograms

| Ingredient | CAS Nbr | % by Wt |
|-----------------------------------|----------|---------|
| 4-methyl-m-phenylene diisocyanate | 584-84-9 | < 1 |

HAZARD STATEMENTS:

| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
|------|--|
| H317 | May cause an allergic skin reaction. |

PRECAUTIONARY STATEMENTS

| Prevention: | |
|-------------|---|
| P261 | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| P284A | In case of inadequate ventilation wear respiratory protection. |
| P280E | Wear protective gloves. |
| | |
| Response: | |
| P304 + P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P342 + P311 | If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician. |
| 10.2 1011 | If experiencing respiratory symptoms. Can a POISON CENTRE of doctor/physician. |

9% of the mixture consists of components of unknown acute inhalation toxicity. Contains 91% of components with unknown hazards to the aquatic environment.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Contains: 4-methyl-m-phenylene diisocyanate

Risk phrases

| R20 | Harmful by inhalation. |
|-----|--|
| R42 | May cause sensitisation by inhalation. |

Safety phrases

S23A S45 Do not breathe vapour. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Special provisions concerning the labelling of certain substances

Contains isocyanates. See information supplied by manufacturer.

2.3. Other hazards

Persons previously sensitized to isocyanates may develop a cross-sensitization reaction to other isocyanates.

SECTION 3: Composition/information on ingredients

| Ingredient | CAS Nbr | EU Inventory | % by Wt | Classification |
|-----------------------------------|----------|--------------|---------|---|
| Non-hazardous ingredients | Mixture | | > 99 | |
| 4-methyl-m-phenylene diisocyanate | 584-84-9 | EINECS 209- | < 1 | Carc.Cat.3:R40; T+:R26; |
| | | 544-5 | | Xi:R36-37-38; R42-43; R52/53 |

| | | | | STOT SE 3, H335; Aquatic |
| | | | | Chronic 3, H412 - Nota C (CLP) |

Please see section 16 for the full text of any R phrases and H statements referred to in this section Please refer to section 15 for the any applicable Notas that have been applied to the above components

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

Eye contact

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

If swallowed

Rinse mouth. If you feel unwell, get medical attention.

4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1 Information on toxicological effects

4.3. Indication of any immediate medical attention and special treatment required

Not applicable

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

5.2. Special hazards arising from the substance or mixture

None inherent in this product.

Hazardous Decomposition or By-Products

| <u>Substance</u> | <u>Condition</u> |
|---------------------|--------------------|
| Carbon monoxide. | During combustion. |
| Carbon dioxide. | During combustion. |
| Hydrogen cyanide. | During combustion. |
| Oxides of nitrogen. | During combustion. |

5.3. Advice for fire-fighters

No unusual fire or explosion hazards are anticipated.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

6.2. Environmental precautions

Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Contain spill. Pour isocyanate decontaminant solution (90% water, 8% concentrated ammonia, 2% detergent) on spill and allow to react for 10 minutes. Or pour water on spill and allow to react for more than 30 minutes. Cover with absorbent material. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a container approved for transportation by appropriate authorities, but do not seal the container for 48 hours to avoid pressure build-up. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Dispose of collected material as soon as possible.

6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

SECTION 7: Handling and storage

7.1. Precautions for safe handling

For industrial or professional use only. Do not use in a confined area with minimal air exchange. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Use personal protective equipment (eg. gloves, respirators...) as required.

7.2. Conditions for safe storage including any incompatibilities

Keep container tightly closed to prevent contamination with water or air. If contamination is suspected, do not reseal

container. Store away from heat. Keep from freezing. Store away from acids. Store away from strong bases. Store away from oxidising agents.

7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Ingredient | CAS Nbr | Agency | Limit type | Additional comments |
|--|------------------|--------------|-------------------------|------------------------|
| Free isocyanates | 584-84-9 | Manufacturer | TWA:0.005 ppm;STEL:0.02 | |
| - | | determined | ppm | |
| Free isocyanates | 584-84-9 | Health and | TWA(as NCO):0.02 | Respiratory Sensitizer |

| | | (UK) | mg/m3 | |
| Health and Safety Comm. (UK) : UK Health | th and Safety Co | mmission | 0 | |
| TWA: Time-Weighted-Average | - | | | |
| CTEL CL (T E L'') | | | | |

STEL: Short Term Exposure Limit **CEIL:** Ceiling

Biological limit values

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.

8.2. Exposure controls

8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Provide appropriate local exhaust ventilation on open containers.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

Select and use eve/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Indirect vented goggles.

Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended: Butyl rubber. Polymer laminate

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an exposure assessment. The following protective clothing material(s) are recommended: Apron - Butyl rubber Apron - polymer laminate

Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

SECTION 9: Physical and chemical properties

| 9.1. Information on basic physical and chemical prop | perties |
|--|---|
| Physical state | Liquid. |
| Specific Physical Form: | Opaque paste |
| Appearance/Odour | Faint musty odour; Yellowish colour |
| Odour threshold | No data available. |
| рН | Not applicable. |
| Boiling point/boiling range | >=300 °C |
| Melting point | Not applicable. |
| Flammability (solid, gas) | Not applicable. |
| Explosive properties | Not classified |
| Oxidising properties | Not classified |
| Flash point | >=190 °C [Test Method:Closed Cup] |
| Autoignition temperature | >=400 °C |
| Flammable Limits(LEL) | No data available. |
| Flammable Limits(UEL) | No data available. |
| Vapour pressure | 1,700 Pa [@ 50 °C] |
| Relative density | 1.085 [<i>Ref Std</i> :WATER=1] |
| Water solubility | Negligible |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Evaporation rate | No data available. |
| Vapour density | No data available. |
| Decomposition temperature | No data available. |
| Viscosity | No data available. |
| Density | 1.085 g/ml |
| 9.2. Other information | |
| Volatile organic compounds (VOC) | 1.4 g/l [Test Method:Estimated] [Details:EU Definition (on Part |
| | A and B mix)] |
| Percent volatile | 0 % |
| | |

SECTION 10: Stability and reactivity

10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

10.2 Chemical stability

Stable.

10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

10.4 Conditions to avoid

None known.

10.5 Incompatible materials

Accelerators Alcohols. Amines. Reaction with water, a

Reaction with water, alcohols, and amines is not hazardous if container can vent to the atmosphere to prevent pressure buildup. Strong acids.

Strong bases. Strong oxidising agents.

10.6 Hazardous decomposition products

Substance None known. Condition

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

11.1 Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. Allergic respiratory reaction: Signs/symptoms may include difficulty breathing, wheezing, cough, and tightness of chest.

Skin contact

Contact with the skin during product use is not expected to result in significant irritation. Allergic skin reaction (non-photo induced): Signs/symptoms may include redness, swelling, blistering, and itching.

Eye contact

Moderate eye irritation: Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

Ingestion

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea.

Carcinogenicity:

Contains a chemical or chemicals which can cause cancer.

Additional information:

Persons previously sensitised to isocyanates may develop a cross-sensitisation reaction to other isocyanates.

Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

| Name | Route | Species | Value |
|-----------------------------------|-------------|---------|--|
| Overall product | Inhalation- | | No data available; calculated ATE >50 mg/l |
| - | Vapor(4 hr) | | |
| Overall product | Ingestion | | No data available; calculated ATE >5,000 mg/kg |
| Non-hazardous ingredients | Dermal | Rabbit | LD50 > 5,000 mg/kg |
| Non-hazardous ingredients | Inhalation- | Rat | LC50 > 0.691 mg/l |
| | Dust/Mist | | |
| | (4 hours) | | |
| Non-hazardous ingredients | Ingestion | Rat | LD50 > 5,110 mg/kg |
| 4-methyl-m-phenylene diisocyanate | Inhalation- | Mouse | LC50 0.12 mg/l |
| | Vapor (4 | | |
| | hours) | | |
| 4-methyl-m-phenylene diisocyanate | Dermal | Rabbit | LD50 > 9,400 mg/kg |
| 4-methyl-m-phenylene diisocyanate | Inhalation- | Rat | LC50 0.35 mg/l |
| · · · · | Dust/Mist | | - |
| | (4 hours) | | |
| 4-methyl-m-phenylene diisocyanate | Ingestion | Rat | LD50 > 5,000 mg/kg |

ATE = acute toxicity estimate

Skin Corrosion/Irritation

| Name | Species | Value |
|-----------------------------------|---------|---------------------------|
| Non-hazardous ingredients | Rabbit | No significant irritation |
| 4-methyl-m-phenylene diisocyanate | Rabbit | Irritant |

Serious Eye Damage/Irritation

| Name | Species | Value |
|-----------------------------------|---------|---------------------------|
| Non-hazardous ingredients | Rabbit | No significant irritation |
| 4-methyl-m-phenylene diisocyanate | Rabbit | Corrosive |

Skin Sensitisation

| Name | Species | Value |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: Ecological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

12.1. Toxicity

No product test data available.

| Material | CAS Nbr | Organism | Туре | Exposure | Test endpoint | Test result |

12.4. Mobility in soil

Please contact manufacturer for more details

12.5. Results of the PBT and vPvB assessment

No information available at this time, contact manufacturer for more details

12.6. Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

See Section 11.1 Information on toxicological effects

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

EU waste code (product as sold)

08 01 11* Waste paint and varnish containing organic solvents or other dangerous substances

SECTION 14: Transportation information

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

Skin contact

Wash with soap and water. If signs/symptoms develop, get medical attention.

Eye contact

Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

If swallowed

Rinse mouth. If you feel unwell, get medical attention.

4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1 Information on toxicological effects

4.3. Indication of any immediate medical attention and special treatment required Net amplicable

Not applicable

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

5.2. Special hazards arising from the substance or mixture

None inherent in this product.

Hazardous Decomposition or By-Products

<u>Substance</u> Carbon monoxide. Carbon dioxide. <u>Condition</u> During combustion. During combustion.

5.3. Advice for fire-fighters

No unusual fire or explosion hazards are anticipated.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

6.2. Environmental precautions

Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Seal the container. Dispose of collected material as soon as possible.

6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

SECTION 7: Handling and storage

7.1. Precautions for safe handling

For industrial or professional use only. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Use personal protective equipment (eg. gloves, respirators...) as required.

7.2. Conditions for safe storage including any incompatibilities

Store away from heat. Store away from acids. Store away from strong bases. Store away from oxidising agents. Store away from areas where product may come into contact with food or pharmaceuticals.

7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Ingredient Aluminum oxides | CAS Nbr 1318-02-1 | Agency Health and Safety Comm. (UK) | Limit type TWA(as inhalable dust):10 mg/m ³ ;TWA(as respirable dust):4 mg/m ³ | Add |

Biological limit values

No biological limit values exist for any of the components listed in Section 3 of this safety data sheet.

8.2. Exposure controls

8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended: Indirect vented goggles.

Skin/hand protection

No chemical protective gloves are required.

Respiratory protection

Wear respiratory protection if ventilation is inadequate to prevent overexposure. An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure: Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Physical state | Liquid. |
|-----------------------------|--|
| Specific Physical Form: | Thixotropic liquid. |
| Appearance/Odour | Slight oily odour; Black colour |
| Odour threshold | No data available. |
| рН | No data available. |
| Boiling point/boiling range | >=100 °C |
| Melting point | Not applicable. |
| Flammability (solid, gas) | Not applicable. |
| Explosive properties | Not classified |
| Oxidising properties | Not classified |
| Flash point | >=100 °C [<i>Test Method</i> :Closed Cup] |
| Autoignition temperature | >=355 °C |
| Flammable Limits(LEL) | No data available. |
| Flammable Limits(UEL) | No data available. |

| Vapour pressure | <=9.3 Pa [@ 20 °C] |
|--|---|
| Relative density | 1.140 [<i>Ref Std:</i> WATER=1] |
| Water solubility | Negligible |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Evaporation rate | No data available. |
| Vapour density | No data available. |
| Decomposition temperature | No data available. |
| Viscosity | No data available. |
| Density | 1.14 g/ml |
| 0.2. Other information | |
| Volatile organic compounds (VOC) | 1.4 g/l [Test Method:Estimated] [Details:EU Definition (on Part |
| | A and B mix)] |
| Percent volatile | 0.4 % weight |
| | |
| SECTION 10: Stability and reacti | vity |

10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

10.2 Chemical stability Stable.

10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

10.4 Conditions to avoid

None known.

10.5 Incompatible materials

Accelerators Amines. Strong acids. Strong bases. Strong oxidising agents.

10.6 Hazardous decomposition products

Substance None known.

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from 3M assessments.

Condition

11.1 Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation

Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

Skin contact

Contact with the skin during product use is not expected to result in significant irritation.

Eye contact

Severe eye irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

Ingestion

Harmful if swallowed.

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause target organ effects after ingestion.

Target Organ Effects:

Prolonged or repeated exposure may cause:

Liver effects: Signs/symptoms may include loss of appetite, weight loss, fatigue, weakness, abdominal tenderness and jaundice. Endocrine effects: Signs/symptoms may include disruption of gonadal, thyroid, adrenal, or pancreatic function, changes in hormone production, alterations in circulating hormone levels, and/or changes in tissue response to hormones.

Carcinogenicity:

Contains a chemical or chemicals which can cause cancer.

Additional information:

Increased numbers of tumors in the liver, thyroid, and possibly the mammary glands were observed in rats given DETDA (CAS No. 68479-98-1) in their diet for two years.

Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

| Name | Route | Species | Value |
|--------------------------------|-------------|---------|--|
| Overall product | Ingestion | | No data available; calculated ATE300 - 2,000 mg/kg |
| Propane-1,2-diol, propoxylated | Dermal | Rabbit | LD50 > 10,000 mg/kg |
| Propane-1,2-diol, propoxylated | Ingestion | Rat | LD50 1,000 mg/kg |
| Diethylmethylbenzenediamine | Dermal | Rat | LD50 > 2,000 mg/kg |
| Diethylmethylbenzenediamine | Inhalation- | Rat | LC50 > 0.61 mg/l |
| | Dust/Mist | | _ |
| | (4 hours) | | |
| Diethylmethylbenzenediamine | Ingestion | Rat | LD50 472 mg/kg |
| Zeolites | Dermal | Rabbit | LD50 > 2,000 mg/kg |
| Zeolites | Inhalation- | Rat | LC50 > 4.57 mg/l |
| | Dust/Mist | | |
| | (4 hours) | | |
| Zeolites | Ingestion | Rat | LD50 > 5,000 mg/kg |
| Diisononyl Phthalate | Dermal | Rabbit | LD50 > 3,160 mg/kg |
| Diisononyl Phthalate | Inhalation- | Rat | LC50 > 1.7 mg/l |
| | Dust/Mist | | |

3M Scotchkote Urethane Elastomer 60RG 537 (Part B)

| | (4 hours) | | |
|--|-------------|--------|---------------------|
| Diisononyl Phthalate | Ingestion | Rat | LD50 > 10,000 mg/kg |
| Carbon black | Dermal | Rabbit | LD50 > 3,000 mg/kg |
| Carbon black | Ingestion | Rat | LD50 > 8,000 mg/kg |
| Distillates (petroleum), hydrotreated middle | Dermal | Rabbit | LD50 > 2,000 mg/kg |
| Distillates (petroleum), hydrotreated middle | Inhalation- | Rat | LC50 4.6 mg/l |
| | Dust/Mist | | |
| | (4 hours) | | |
| Distillates (petroleum), hydrotreated middle | Ingestion | Rat | LD50 > 5,000 mg/kg |
| $\Lambda TE = aguta tarrigity actimate$ | | | |

ATE = acute toxicity estimate

Skin Corrosion/Irritation

| Name | Species | Value |
|--|---------|---------------------------|
| Diethylmethylbenzenediamine | Rabbit | No significant irritation |
| Diisononyl Phthalate | Rabbit | No significant irritation |
| Carbon black | Rabbit | No significant irritation |
| Distillates (petroleum), hydrotreated middle | Rabbit | Minimal irritation |

Serious Eye Damage/Irritation

| Name | Species | Value |
|--|-----------|---------------------------|
| Diethylmethylbenzenediamine | Rabbit | Severe irritant |
| Diisononyl Phthalate | Rabbit | Mild irritant |
| Carbon black | Rabbit | No significant irritation |
| Distillates (petroleum), hydrotreated middle | Not | Mild irritant |
| | available | |

Skin Sensitisation

| Name | Species | Value |
|-----------------------------|---------|--|
| Diethylmethylbenzenediamine | Human | Some positive data exist, but the data are not |
| | | sufficient for classification |
| Diisononyl Phthalate | Human | Not sensitizing |
| | and | |
| | animal | |

Respiratory Sensitisation

| Name | Species | Value |
|------|---------|-------|
| | | |

Germ Cell Mutagenicity

| Name | Route | Value |
|--|----------|--|
| Diethylmethylbenzenediamine | In Vitro | Some positive data exist, but the data are not |
| | | sufficient for classification |
| Diethylmethylbenzenediamine | In vivo | Some positive data exist, but the data are not |
| | | sufficient for classification |
| Diisononyl Phthalate | In Vitro | Not mutagenic |
| Carbon black | In Vitro | Not mutagenic |
| Carbon black | In vivo | Some positive data exist, but the data are not |
| | | sufficient for classification |
| Distillates (petroleum), hydrotreated middle | In Vitro | Some positive data exist, but the data are not |
| | | sufficient for classification |

Carcinogenicity

| Name | Route | Species | Value |
|--|------------|-------------------------------|--|
| Diethylmethylbenzenediamine | Ingestion | Rat | Some positive data exist, but the data are not sufficient for classification |
| Diisononyl Phthalate | Ingestion | Multiple animal species | Some positive data exist, but the data are not sufficient for classification |
| Carbon black | Dermal | Mouse | Not carcinogenic |
| Carbon black | Ingestion | Mouse | Not carcinogenic |
| Carbon black | Inhalation | Rat | Carcinogenic. |
| Distillates (petroleum), hydrotreated middle | Dermal | Mouse | Some positive data exist, but the data are not sufficient for classification |

Reproductive Toxicity

Reproductive and/or Developmental Effects

| Name | Route | Value | Species | Test result | Exposure Duration |
|-----------------------------|-----------|----------------------------------|---------|-----------------------------|-------------------------|
| Diethylmethylbenzenediamine | Ingestion | Not toxic to female reproduction | Rat | NOAEL 3.5 mg/kg/day | 24 months |
| Diethylmethylbenzenediamine | Ingestion | Not toxic to male reproduction | Rat | NOAEL 2.8 mg/kg/day | 24 months |
| Diisononyl Phthalate | Ingestion | Not toxic to female reproduction | Rat | NOAEL 500 mg/kg/day | 2 generation |
| Diisononyl Phthalate | Ingestion | Not toxic to male reproduction | Rat | NOAEL 500 mg/kg/day | 2 generation |
| Diisononyl Phthalate | Ingestion | Not toxic to development | Rat | NOAEL 1,000 mg/kg/day | during organogenesis |

Target Organ(s)

Specific Target Organ Toxicity - single exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure |
|--------------------------|------------|------------------------|-----------------------------------|-----------|-------------|----------|
| | | | | | | Duration |
| Distillates (petroleum), | Inhalation | central nervous | Some positive data exist, but the | Not | NOAEL NA | |
| hydrotreated middle | | system depression | data are not sufficient for | available | | |
| | | respiratory irritation | classification | | | |
| Distillates (petroleum), | Ingestion | central nervous | May cause drowsiness or | Not | NOAEL NA | |
| hydrotreated middle | _ | system depression | dizziness | available | | |

Specific Target Organ Toxicity - repeated exposure

| Name | Route | Target Organ(s) | Value | Species | Test result | Exposure Duration |
|---------------------------------|------------|---|--|---------|-----------------------------|--------------------------|
| Diethylmethylbenzenedia mine | Ingestion | liver | Causes damage to organs through prolonged or repeated exposure | Rat | LOAEL 0.4 mg/kg/day | 24 months |
| Diethylmethylbenzenedia mine | Ingestion | endocrine system | May cause damage to organs though prolonged or repeated exposure | Rat | NOAEL 1.4 mg/kg/day | 24 months |
| Diethylmethylbenzenedia mine | Ingestion | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 2.8 mg/kg/day | 24 months |
| Diethylmethylbenzenedia mine | Ingestion | eyes | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL 1.4 mg/kg/day | 24 months |
| Diethylmethylbenzenedia mine | Ingestion | heart skin bone, teeth, nails, and/or hair hematopoietic system immune system muscles nervous system respiratory system | All data are negative | Rat | NOAEL 3.5 mg/kg/day | 24 months |
| Diisononyl Phthalate | Dermal | blood liver kidney and/or bladder | All data are negative | Rabbit | NOAEL 2,425 mg/kg/day | 6 weeks |
| Diisononyl Phthalate | Ingestion | kidney and/or bladder | Some positive data exist, but the data are not sufficient for classification | Rat | NOAEL not available | 13 weeks |
| Carbon black | Inhalation | pneumoconiosis | Some positive data exist, but the data are not sufficient for classification | Human | NOAEL Not available | occupational exposure |

Aspiration Hazard

| | Name | Value |
|---|--|-------------------|
| ĺ | Distillates (petroleum), hydrotreated middle | Aspiration hazard |
| | | |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: Ecological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

12.1. Toxicity

No product test data available.

| Material | CAS Nbr | Organism | Туре | Exposure | Test endpoint | Test result |
|---|------------|----------------------|--|----------|---------------|-------------|
| 1,2- Benzenedicarb oxylic acid, benzyl C7-9- branched and linear alkyl esters | 68515-40-2 | | Data not available or insufficient for classification | | | |
| Carbon black | 1333-86-4 | | Data not available or insufficient for classification | | | |
| Diethylmethyl benzenediamin e | 68479-98-1 | Golden Orfe | Experimental | 48 hours | LC50 | 194 mg/l |
| Diethylmethyl benzenediamin e | 68479-98-1 | Water flea | Experimental | 48 hours | EC50 | 0.5 mg/l |
| Diisononyl Phthalate | 28553-12-0 | | Data not available or insufficient for classification | | | |

12.4. Mobility in soil

Please contact manufacturer for more details

12.5. Results of the PBT and vPvB assessment

No information available at this time, contact manufacturer for more details

12.6. Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

See Section 11.1 Information on toxicological effects

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

EU waste code (product as sold)

08 01 11* Waste paint and varnish containing organic solvents or other dangerous substances

SECTION 14: Transportation information

GR-2001-0961-3

ADR/RID: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID,N.O.S.LIMITED QUANTITY, (DIETHYLMETHYLBENZENEDIAMINE), 9., III, (E), ADR Classification Code: M6. IMDG-CODE: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID, N.O.S., (DIETHYLMETHYLBENZENEDIAMINE), 9., III, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FA,SF. ICAO/IATA: UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE,LIQUID,N.O.S., (DIETHYLMETHYLBENZENEDIAMINE), 9., III, fish and tree marking may be required (> 5kg/l).

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| Carcinogenicity | | | |

15.2. Chemical Safety Assessment

Not applicable

SECTION 16: Other information

List of relevant H statements

| EUH066 | Repeated exposure may cause skin dryness or cracking. |
|--------|--|
| H302 | Harmful if swallowed. |
| H304 | May be fatal if swallowed and enters airways. |
| H312 | Harmful in contact with skin. |
| H319 | Causes serious eye irritation. |
| H332 | Harmful if inhaled. |
| H336 | May cause drowsiness or dizziness. |
| H373 | May cause damage to organs through prolonged or repeated exposure. |
| H400 | Very toxic to aquatic life. |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H411 | Toxic to aquatic life with long lasting effects. |
| | |

List of relevant R-phrases

| R20 | Harmful by inhalation. |
|--------|--|
| R21 | Harmful in contact with skin. |
| R22 | Harmful if swallowed. |
| R36 | Irritating to eyes. |
| R48/22 | Harmful: danger of serious damage to health by prolonged exposure if swallowed. |
| R50/53 | Very toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. |
| R51/53 | Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. |
| R65 | Harmful: May cause lung damage if swallowed. |
| R66 | Repeated exposure may cause skin dryness or cracking. |

Identified uses

Coating.

1.3. Details of the supplier of the substance or mixture

Address: 3M United Kingdom PLC, 3M Centre, Cain Road, Bracknell, Berkshire, RG12 8HT.

E Mail: tox.uk@mmm.com Website: www.3M.com/uk

1.4. Emergency telephone number

+44 (0)1344 858 000

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture CLP REGULATION (EC) No 1272/2008

CLASSIFICATION:

Flammable Liquid, Category 2 - Flam. Liq. 2; H225 Serious Eye Damage/Eye Irritation, Category 2 - Eye Irrit. 2; H319 Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315 Respiratory Sensitization, Category 1 - Resp. Sens. 1; H334 Skin Sensitization, Category 1 - Skin Sens. 1; H317 Carcinogenicity, Category 2 - Carc. 2; H351 Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H335 Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H336

For full text of H phrases, see Section 16.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Indication of danger Highly flammable; F; R11 Carcinogenic; Carc. Cat. 3; R40 Irritant; Xi; R36/37/38 Sensitizing; R42/43 R67

For full text of R phrases, see Section 16.

2.2. Label elements CLP REGULATION (EC) No 1272/2008

SIGNAL WORD DANGER!

Symbols: GHS02 (Flame) |GHS07 (Exclamation mark) | GHS08 (Health Hazard) |

Pictograms

| Ingredient | CAS Nbr | % by Wt |
|-------------------------------------|-----------|---------|
| Butanone | 78-93-3 | 70 - 80 |
| 4,4'-methylenediphenyl diisocyanate | 101-68-8 | 1 - 5 |
| Diphenylmethane-2,4'-diisocyanate | 5873-54-1 | 1 - 5 |

HAZARD STATEMENTS:

| H225 | Highly flammable liquid and vapour. |
|------|--|
| H319 | Causes serious eye irritation. |
| H315 | Causes skin irritation. |
| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H317 | May cause an allergic skin reaction. |
| H335 | May cause respiratory irritation. |
| H336 | May cause drowsiness or dizziness. |
| H351 | Suspected of causing cancer. |

PRECAUTIONARY STATEMENTS

| Prevention: P210A | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
|--------------------------|--|
| P261 | Avoid breathing dust/fume/gas/mist/vapours/spray. |
| P284A | In case of inadequate ventilation wear respiratory protection. |
| P280E | Wear protective gloves. |
| Response: | |
| P304 + P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P342 + P311 | If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician. |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |

| P333 + P313 | If skin irritation or rash occurs: Get medical advice/attention. |
|--------------|--|
| P370 + P378G | In case of fire: Use a fire fighting agent suitable for flammable liquids and solids such as dry |
| | chemical or carbon dioxide to extinguish. |

25% of the mixture consists of components of unknown acute inhalation toxicity.

Dangerous substances(67/548/EEC)/preparations(1999/45/EC) directive

Symbol(s)

Highly Flammable

Contains:

Diphenylmethane-2,4'-diisocyanate; 4,4'-methylenediphenyl diisocyanate

Risk phrases

| R11 | Highly flammable. |
|-----------|---|
| R36/37/38 | Irritating to eyes, respiratory system and skin. |
| R42/43 | May cause sensitisation by inhalation and skin contact. |
| R67 | Vapours may cause drowsiness and dizziness. |
| R40 | Limited evidence of a carcinogenic effect. |

Safety phrases

| S16 | Keep away from sources of ignition - No Smoking. |
|--------|--|
| S23A | Do not breathe vapour. |
| S36/37 | Wear suitable protective clothing and gloves. |
| S45 | In case of accident or if you feel unwell, seek medical advice immediately (show the label where |
| | possible). |

Special provisions concerning the labelling of certain substances

Contains isocyanates. See information supplied by manufacturer.

2.3. Other hazards

Persons previously sensitized to isocyanates may develop a cross-sensitization reaction to other isocyanates.

SECTION 3: Composition/information on ingredients

| Ingredient | CAS Nbr | EU Inventory | % by Wt | Classification |
|-------------------------------------|----------|--------------|---------|-----------------------------------|
| Butanone | 78-93-3 | EINECS 201- | 70 - 80 | F:R11; Xi:R36; R66; R67 (EU) |
| | | 159-0 | | |
| | | | | Flam. Liq. 2, H225; Eye Irrit. 2, |
| | | | | H319; STOT SE 3, H336; |
| | | | | EUH066 (CLP) |
| Non-hazardous ingredients | Mixture | | 15 - 30 | |
| 4,4'-methylenediphenyl diisocyanate | 101-68-8 | EINECS 202- | 1 - 5 | Carc.Cat.3:R40; Xn:R20-48/20; |

|-----------------------------------|-----------|----------------------|-------|---|
| Diphenylmethane-2,4'-diisocyanate | 5873-54-1 | EINECS 227- 534-9 | 1 - 5 | Carc.Cat.3:R40; Xn:R20-48/20; Xi:R36-37-38; R42-43 - Nota 2,C (EU) |
| | | | | Acute Tox. 4, H332; Skin Irrit. 2, H315; Eye Irrit. 2, H319; Resp. Sens. 1, H334; Skin Sens. 1, H317; Carc. 2, H351; STOT SE 3, H335; STOT RE 2, H373 - Nota 2,C (CLP) |

Please see section 16 for the full text of any R phrases and H statements referred to in this section Please refer to section 15 for the any applicable Notas that have been applied to the above components

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Remove person to fresh air. If you feel unwell, get medical attention.

Skin contact

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop, get medical attention.

Eye contact

Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

If swallowed

Rinse mouth. If you feel unwell, get medical attention.

4.2. Most important symptoms and effects, both acute and delayed

See Section 11.1 Information on toxicological effects

4.3. Indication of any immediate medical attention and special treatment required

Not applicable

SECTION 5: Fire-fighting measures

5.1. Extinguishing media

In case of fire: Use a fire fighting agent suitable for flammable liquids and solids such as dry chemical or carbon dioxide to extinguish.

5.2. Special hazards arising from the substance or mixture

Closed containers exposed to heat from fire may build pressure and explode.

Hazardous Decomposition or By-Products

<u>Substance</u> Carbon monoxide. <u>Condition</u> During combustion.

| Carbon dioxide. | |
|---------------------|--|
| Hydrogen cyanide. | |
| Oxides of nitrogen. | |

During combustion. During combustion. During combustion.

5.3. Advice for fire-fighters

Water may not effectively extinguish fire; however, it should be used to keep fire-exposed containers and surfaces cool and prevent explosive rupture.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

6.2. Environmental precautions

Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Contain spill. Pour isocyanate decontaminant solution (90% water, 8% concentrated ammonia, 2% detergent) on spill and allow to react for 10 minutes. Or pour water on spill and allow to react for more than 30 minutes. Cover with absorbent material. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a container approved for transportation by appropriate authorities, but do not seal the container for 48 hours to avoid pressure build-up. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Dispose of collected material as soon as possible.

6.4. Reference to other sections

Refer to Section 8 and Section 13 for more information

SECTION 7: Handling and storage

7.1. Precautions for safe handling

For industrial or professional use only. Do not use in a confined area with minimal air exchange. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Ground/bond container and receiving equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapor accumulation.

7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep cool. Keep container tightly closed to prevent contamination with water or air. If contamination is suspected, do not reseal container. Store away from heat. Store away from acids. Store away from oxidising agents.

7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Ingredient Free isocyanates | CAS Nbr 101-68-8 | Agency Manufacturer determined | Limit type TWA:0.005 ppm;STEL:0.02 ppm | Additional comments |
|---------------------------------------|---------------------|--------------------------------------|--|------------------------|
| Free isocyanates | 101-68-8 | Health and Safety Comm. (UK) | TWA(as NCO):0.02 mg/m3;STEL(as NCO):0.07 mg/m3 | Respiratory Sensitizer |
| Free isocyanates | 5873-54-1 | Manufacturer determined | TWA:0.005 ppm;STEL:0.02 ppm | |
| Free isocyanates | 5873-54-1 | Health and Safety Comm. (UK) | TWA(as NCO):0.02 mg/m3;STEL(as NCO):0.07 mg/m3 | Respiratory Sensitizer |
| Butanone | 78-93-3 | Health and Safety Comm. (UK) | TWA: 600 mg/m ³ (200 ppm); STEL: 899 mg/m ³ (300 ppm) | Skin Notation |

Health and Safety Comm. (UK) : UK Health and Safety Commission TWA: Time-Weighted-Average STEL: Short Term Exposure Limit CEIL: Ceiling

Biological limit values

| Ingredient | CAS Nbr | Agency | Determinant | Biological Specimen | Sampling Time | Value | Additional comments |
|------------|------------|------------------|-------------|------------------------|------------------|-----------|---------------------|
| Butanone | 78-93-3 | UK EH40 BMGVs | Butan-2-one | Urine | EOS | 70 umol/L | |

UK EH40 BMGVs : UK. EH40 Biological Monitoring Guidance Values (BMGVs) EOS: End of shift.

8.2. Exposure controls

8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Indirect vented goggles.

Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended: Butyl rubber. Polymer laminate

| 3M Scotchkote Urethan | e Elastomer Primer 075 |
|------------------------------|------------------------|
|------------------------------|------------------------|

If this product is used in a manner that presents a higher potential for exposure (eg. spraying, high splash potential etc.), then use of protective coveralls may be necessary. Select and use body protection to prevent contact based on the results of an exposure assessment. The following protective clothing material(s) are recommended: Apron – Butyl rubber Apron - polymer laminate

Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapours and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Physical state | Liquid. |
|--|---|
| Specific Physical Form: | Liquid. |
| Appearance/Odour | Pungent Solvent odour; Clear Amber colour |
| Odour threshold | No data available. |
| рН | Not applicable. |
| Boiling point/boiling range | >=80 °C |
| Melting point | Not applicable. |
| Flammability (solid, gas) | Not applicable. |
| Explosive properties | Not classified |
| Oxidising properties | Not classified |
| Flash point | -7 °C [Test Method:Closed Cup] |
| Autoignition temperature | 515 °C |
| Flammable Limits(LEL) | 1.8 % volume |
| Flammable Limits(UEL) | 11.5 % volume |
| Vapour pressure | 10,399.1 Pa [@ 20 °C] |
| Relative density | 0.870 [<i>Ref Std</i> :WATER=1] |
| Water solubility | Negligible |
| Solubility- non-water | No data available. |
| Partition coefficient: n-octanol/water | No data available. |
| Evaporation rate | 2.7 [<i>Ref Std</i> :BUOAC=1] |
| Vapour density | 2.5 [<i>Ref Std</i> :AIR=1] |
| Decomposition temperature | No data available. |
| Viscosity | < 0.001 Pa-s |
| Density | 0.87 g/ml |
| 9.2. Other information | |
| Volatile organic compounds (VOC) | 652.5 g/l |
| Percent volatile | 75 % weight |
| | - |
| | |

SECTION 10: Stability and reactivity

10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

10.2 Chemical stability Stable.

10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

10.4 Conditions to avoid

Heat. Sparks and/or flames. Temperatures above the boiling point.

10.5 Incompatible materials

Alcohols. Combustibles. Reaction with water, alcohols, and amines is not hazardous if container can vent to the atmosphere to prevent pressure buildup. Strong acids. Strong oxidising agents.

10.6 Hazardous decomposition products

Substance

None known.

Condition

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

11.1 Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation

May be harmful if inhaled. Respiratory tract irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. Allergic respiratory reaction: Signs/symptoms may include difficulty breathing, wheezing, cough, and tightness of chest. May cause target organ effects after inhalation.

Skin contact

Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, dryness, cracking, blistering, and pain. Allergic skin reaction (non-photo induced): Signs/symptoms may include redness, swelling, blistering, and itching.

Eye contact

Severe eye irritation: Signs/symptoms may include significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.

Ingestion

May be harmful if swallowed.

Gastrointestinal irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhoea. May cause target organ effects after ingestion.

Target Organ Effects:

Single exposure may cause:

Central nervous system (CNS) depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

Prolonged or repeated exposure may cause:

Respiratory effects: Signs/symptoms may include cough, shortness of breath, chest tightness, wheezing, increased heart rate, bluish coloured skin (cyanosis), sputum production, changes in lung function tests, and respiratory failure.

Additional information:

Persons previously sensitised to isocyanates may develop a cross-sensitisation reaction to other isocyanates.

Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

| Name | Route | Species | Value |
|-------------------------------------|-------------|---------|--|
| Overall product | Inhalation- | | No data available; calculated ATE20 - 50 mg/l |
| - | Vapor(4 hr) | | |
| Overall product | Ingestion | | No data available; calculated ATE2,000 - 5,000 |
| | - | | mg/kg |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: Ecological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

12.1. Toxicity

No product test data available.

| Material | CAS Nbr | Organism | Туре | Exposure | Test endpoint | Test result |
|----------|---------|-------------|--------------|----------|---------------|-------------|

| Diphenylmetha ne-2,4'- diisocyanate | 5873-54-1 | Estimated Biodegradation | 28 days | BOD | 0 % weight | OECD 301C - MITI test (I) |

12.3 : Bioaccumulative potential

| Material | CAS Nbr | Test type | Duration | Study Type | Test result | Protocol |
|--|-----------|--------------------------------------|----------|----------------------------|-------------|---------------|
| Butanone | 78-93-3 | Experimental Bioconcentrati on | | Log Kow | 0.29 | Other methods |
| 4,4'- methylenediph enyl diisocyanate | 101-68-8 | Experimental BCF-Carp | 28 days | Bioaccumulati on factor | 200 | Other methods |
| Diphenylmetha ne-2,4'- diisocyanate | 5873-54-1 | Estimated BCF-Carp | 28 days | Bioaccumulati on factor | 200 | Other methods |

12.4. Mobility in soil

Please contact manufacturer for more details

12.5. Results of the PBT and vPvB assessment

No information available at this time, contact manufacturer for more details

12.6. Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

See Section 11.1 Information on toxicological effects

Incinerate in a permitted waste incineration facility. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of 3M, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/EC and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor.

EU waste code (product as sold)

080501* Waste isocyanates

SECTION 14: Transportation information

GR-2001-0972-0, GR-2001-0973-8

ADR/RID: UN1263, PAINT RELATED MATERIAL, LIMITED QUANTITY, 3., II, (E), ADR Classification Code: F1. **IMDG-CODE:** UN1263, PAINT RELATED MATERIAL, 3, II, IMDG-Code segregation code: NONE, LIMITED QUANTITY, EMS: FE,SE.

ICAO/IATA: UN1263, PAINT RELATED MATERIAL, 3., II .

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| Carcinogenicity | | | |
|-------------------------------------|-----------|-------------------------|------------------------|
| Ingredient | CAS Nbr | Classification | Regulation |
| Diphenylmethane-2,4'-diisocyanate | 5873-54-1 | Carc. 2 | Regulation (EC) No. |
| | | | 1272/2008, Table 3.1 |
| Diphenylmethane-2,4'-diisocyanate | 5873-54-1 | Carc.Cat.3 | Regulation (EC) No. |
| | | | 1272/2008, Table 3.2 |
| 4,4'-methylenediphenyl diisocyanate | 101-68-8 | Carc. 2 | Regulation (EC) No. |
| | | | 1272/2008, Table 3.1 |
| 4,4'-methylenediphenyl diisocyanate | 101-68-8 | Carc.Cat.3 | Regulation (EC) No. |
| | | | 1272/2008, Table 3.2 |
| 4,4'-methylenediphenyl diisocyanate | 101-68-8 | Gr. 3: Not classifiable | International Agency |
| | | | for Research on Cancer |

Global inventory status

Contact 3M for more information. The components of this material are in compliance with the China "Measures on Environmental Management of New Chemical Substance". Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of the Korean Toxic Chemical Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this product the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. The components of this product are in compliance with the chemical notification requirements of TSCA.

15.2. Chemical Safety Assessment Not applicable

SECTION 16: Other information

List of relevant H statements

| EUH066 | Repeated exposure may cause skin dryness or cracking. |
|--------|--|
| H225 | Highly flammable liquid and vapour. |
| H315 | Causes skin irritation. |
| H317 | May cause an allergic skin reaction. |
| H319 | Causes serious eye irritation. |
| H332 | Harmful if inhaled. |
| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H335 | May cause respiratory irritation. |
| H336 | May cause drowsiness or dizziness. |
| H351 | Suspected of causing cancer. |
| H373 | May cause damage to organs through prolonged or repeated exposure. |

List of relevant R-phrases

| R11 | Highly flammable. |
|-----------|---|
| R20 | Harmful by inhalation. |
| R36 | Irritating to eyes. |
| R36/37/38 | Irritating to eyes, respiratory system and skin. |
| R37 | Irritating to respiratory system. |
| R38 | Irritating to skin. |
| R40 | Limited evidence of a carcinogenic effect. |
| R42 | May cause sensitisation by inhalation. |
| R42/43 | May cause sensitisation by inhalation and skin contact. |
| R43 | May cause sensitisation by skin contact. |
| R48/20 | Harmful: danger of serious damage to health by prolonged exposure through inhalation. |
| R66 | Repeated exposure may cause skin dryness or cracking. |
| R67 | Vapours may cause drowsiness and dizziness. |

Revision information:

Revision Changes:

Section 1: Product identification numbers heading information was modified.

Section 3: Composition/ Information of ingredients table information was modified.

Section 12: Component ecotoxicity information information was modified.

Section 12: Persistence and Degradability information information was modified.

Section 12:Bioccumulative potential information information was modified.

CLP: Ingredient table information was modified.

Section 11: Acute Toxicity table information was modified.

Legend description information was added.

BLV Reg Agency Desc information was added.

Section 8: 8.1.1 Biological limit values table heading information was added.

Section 8: BLV table information was added.

Section 8: BLV table ingredient column heading information was added.

Section 8: BLV table cas nbr column heading information was added.

Section 8: BLV table agency column heading information was added.

Section 8: BLV table cas nbr column heading information was added.

Section 8: BLV table biological specimen Column heading information was added.

Section 8: BLV table sampling time Column heading information was added.

Section 8: BLV table value Column heading information was added.

Section 8: BLV table additional comments Column heading information was added.

DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications.
