

UPS 19500 SPRK Small Pipe Repair Kit has been designed to put all products required to carry out emergency repairs to leaking pipework.

Many industries and marine companies today are suffering from unplanned small pipe leaks that need an instant repair solution. The leaks can seriously affect the companies ability to continue to manufacture and make profits.

To prevent the replacement of pipework - Unique Polymer Systems LTD can supply a long-term solution that enables full repair whilst allowing full protection / plant operation to continue.

Product Features

- By utilizing *UPS 19601 PR Pipe Repair Bandage* – immediate and cost effective repairs can be carried out.
- Surface preparation is at a minimum due to the surface tolerant characteristics of the *UPS 19601 PR*
- The end result can offer long term protection at a working temperature of 270°C and at pressures ranging from 10 bar (150psi) through to 27 bar (400psi) if used in conjunction with *UPS 19060 SG* and a double wrap
- The finished repair can seal effectively after only 5 minutes with full cure after 30 minutes.
